Facial Treatments

CACI Non-Surgical Face Lift

See supplement on this revolutionary skin treatment

Crystal Clear Oxygen Facials

The treatment is suitable for all skin types. A course of treatments will visibly plump out fine lines and wrinkles and hydrate the skin. Regular treatments will create volume within the bio-matrix of the skin and help stimulate cell regeneration, stimulating new collagen and elastin.

Results are obvious after the very first treatment. However, a client will notice further improvement in her skin several hours after the first treatment. The use of the jet of oxygen along with the active ingredients contained within the serum provides an anti-bacterial effect to help prevent infections and bacteria, also helping to eliminate toxins trapped within the skin.
